Hey there!

First, we want to congratulate you on your academic success leading to graduation and preparing for #adulting. We know college may be the last thing you're worried about, but you have to put in as much time and effort as you do planning your prom-posal. Have you considered college? Are you a first-generation college student? Do you have concerns about how to apply? Are you worried about the financial burden? Are you aware of resources available to you? Well, this #CAPSM Toolkit has many of the answers for you!

The #CAPSM Toolkit has been developed as a resource for students like yourself to implement strategies as you prepare to further your education by attending a college or university. This toolkit will include information on scholarships, financial aid "To-Dos", SAT and ACT resources, essay and application tips, and a college admission checklist. As you research colleges and universities, we want to encourage you to apply to Historically Black Colleges and Universities (HBCUs). Not only do HBCUs have a rich history, they also prepare students professionally and personally throughout their academic career to be ready for the adult world.

This resource will guide you through the admissions process and hopefully help you get accepted into a college or university!

Good luck and we hope you have another successful school year!
Dear Student/Parent:

Time to apply to college! These words strike fear in the hearts of many high school juniors, seniors and parents alike. Members of Alpha Kappa Alpha Sorority, Incorporated® do not want students and parents to fret or to break out into a cold sweat when thinking about college. We believe the more you know about the college application process, the better prepared you will be to manage the stress and, ultimately, to enroll in college.

In my role as a college president, I have encountered so many young people who possess all of the talent to gain admission to college. But I also have discovered that many of them are would-be, first-generation college students and their parents simply have not been equipped with the tools to help them navigate the college admissions process. That is where we step in.

Whether you are a would-be, first-generation college student or you simply need assistance in better understanding how to navigate all of the elements of college admission from the application process to housing and applying for financial aid and scholarships, we want to help you. To do that, we have compiled a comprehensive guide to the college admissions process known as The #CAPSM Toolkit.

#CAP SM is an acronym that stands for college admissions process. Through this toolkit, we will demystify the college admissions process and help you gain admission to college and enroll. The #CAPSM Toolkit explores important aspects of the admissions process such as:

- How to go about researching schools and creating a short list;
- An overview of standardized test preparation, registration and testing;
- How to write a great essay;
- The financial aid application process;
- Who is responsible for which task; and
- Considerations when deciding which college to attend.

Research shows that college graduates make more than twice as much as people who do not graduate from college. So, why not make an investment in your future today by taking advantage of this opportunity to set you on the path to success and living the kind of life you about which you have dreamed. After all, it is your life and this is your opportunity to get off to a good start. Take advantage of it! The members of Alpha Kappa Alpha Sorority, Incorporated® are committed to helping you achieve your goal of college admission, and we look forward to helping you enroll in college!

Sincerely,

Glenda Glover, Ph.D.
International President

You finally made it! As you prepare to walk across the stage and make your family proud, don’t forget you still have to get ready for college. Many students do not realize that your senior year is just as important as your junior year. On this page you will find tips and information on how to make this a productive and successful senior year!

**TIPS FOR YOUR SENIOR YEAR AND PREPARING FOR COLLEGE!**

○ Don’t let Senior-itis tempt you into skipping class or stop you from completing assignments.
  • If you miss a certain number of days of class, then your school may prohibit you from graduating.
  • Colleges still require your final transcript, so if they see you barely passed classes your senior year they may take your scholarship away or deny your acceptance to that school.

○ Get involved or continue to be involved in extracurricular activities and organizations at school.
  • Not only does this look good on college applications, but it will allow you to meet new friends and participate in an activity you enjoy.

○ Participate in Senior Activities and raise your school spirit.

○ Complete college applications early, so you can enjoy your senior year!

○ Don’t compare yourself to others.

○ Celebrate accomplishments throughout the year.
  • Graduating high school is a big deal! Celebrate that you have made it this far!

○ Reinvent yourself.
  • Be open to new experiences and don’t be afraid to step outside your comfort zone.
  • Become the person you’ve always wanted to be and don’t let anyone stop you.

○ Realize that you may not have all of life’s questions figured out quite yet.
  • In college, you are able to change your major and courses. Don’t feel like you have to stick to one path.

○ Make useful connections.
  • Reach out to individuals for mentoring and for internships.

○ Plan ahead as best as you can.
  • This will help alleviate stress and help you feel more in control.
  • You don’t have to worry about what will happen tomorrow or next week.
  • Stay true to your word and be accountable to your promises

○ Be productive.
  • Find where you need to be more proactive.
Junior Resources

You will hear repeatedly that your junior year is your most important year of high school; and they’re right! When you apply to college you will be reporting all your GPA, accolades, and involvements up to your junior year. So make this year count by following some of the suggestions and utilizing resources on this page to prepare you for a successful admissions process!

**TIPS FOR YOUR JUNIOR YEAR AND PREPARING FOR COLLEGE!**

○ Take Advanced Placement (AP) classes.
  • Not only does taking rigorous courses look good on your college application, but you can receive college credits if you score well on your end-of-the-year AP exams.

○ Even if you have a good GPA, that doesn’t mean you shouldn’t prepare to take standardized tests like the SAT and ACT.
  • Use the SAT and ACT official test websites to develop study methods, to register for tests, and to access and send score reports to colleges.

○ Begin creating a college list.
  • Review majors and programs in your areas of interest at different colleges.
  • Consider the size and location of the school.
  • Take into account the colleges’ campus life such as dining halls, dorms, student life, or Greek Life.
  • How you will pay for college should also be considered when applying.
  • Plan a college tour to view the campus first hand.
  • Attend college fairs to gain information on various schools and what they each have to offer.

○ Learn how to effectively balance your time.
  • Don’t let your grades suffer because of extracurricular activities and don’t be afraid to get involved in organizations just to earn a high GPA.

○ Get organized.
  • You will become overwhelmed with test prep materials, homework, and college brochures; create a system to keep your room clutter free!

○ Meet with your Guidance Counselor!
  • They have helped countless students before you get into college.
  • Meet with them to ensure you are on the right track to graduate on time and use them as a resource during the admissions process.

○ Start searching for scholarships now.
  • There are several scholarships that juniors can apply for.
  • Check out and prepare for scholarships you can apply for during your senior year.

○ Get involved in extracurricular activities.
  • By playing sports, becoming a thespian, or getting involved in Student Government you are elevating your college application.
  • Become a part of at least two extracurricular activities.

○ Finally, relax!
  • Enjoy your junior year of high school and create lasting memories with your friends.
Did you take the SAT or ACT towards the end of your junior and wonder if your scores are competitive enough or if you need to retake exams?

- Check out each college’s website to see the latest freshman class average score on the SAT and ACT.
- A 1060 or higher on the SAT is considered above average and competitive for colleges.
  - The SAT percentile you receive means you scored higher than that amount of students (i.e. if you scored in the 55th percentile, then you scored higher than 55% of students).
- A 20 or higher on the ACT is considered above average and competitive for colleges.
  - The ACT percentile you receive means you scored higher than that amount of students (i.e. if you scored in the 55th percentile, then you scored higher than 55% of students).

### TIPS FOR THE SAT AND ACT

- When practicing for the SAT or ACT do not flip back and forth after each question to the answer section; complete a section or a page before checking your answers.
- Eliminate incorrect answers to get to the correct answer.
- Complete easier questions first, then return to the more difficult questions or questions you marked.
- If you are unsure of an answer, then guess! There is no penalty for guessing.
- TRUST YOURSELF!

WHEN SHOULD YOU TAKE THE PSAT OR ACT PRACTICE TEST?

○ 2020-2021 PSAT test dates.
  • October 1, 4, 17, 29, 2020
  • February 22-March 26, 2021; April 13-30, 2021

○ Practice for the ACT using previous years tests on www.act.org.

WHEN SHOULD YOU TAKE THE SAT OR ACT?

○ You should take the SAT or ACT in the spring of your junior year.

WHICH TEST SHOULD I TAKE; THE SAT, THE ACT, OR BOTH?

○ When you begin researching potential schools you should review which test they accept.
  • Recently, colleges have weighed these tests equally in the admissions process.

○ The SAT test structure involves reading, writing and language, math, and an optional essay.

○ The ACT test structure involves English, math, reading, science reasoning, and an optional essay.

○ Take a practice test on www.princetonreview.com/freepracticetest to see which test you perform better on.

TIPS FOR THE SAT AND ACT

○ Study for approximately two months prior to your exam (i.e. if you are taking the SAT in May, then you should study from March-April).

○ When practicing for the SAT or ACT do not flip back and forth after each question to the answer section; complete a section or a page before checking your answers.

○ Eliminate incorrect answers to get to the correct answer.

○ Complete easier questions first, then return to the more difficult questions or questions you marked.

○ If you are unsure of an answer, then guess! There is no penalty for guessing.

HOW TO APPLY

○ Narrow down your college choices until you reach a comfortable amount; at least 5.
○ Look up each school’s deadline and send in your application early.
○ Understand each schools’ specific admissions requirements.
  • Check each school’s website for their specific requirements.
  • Or use www.petersons.com to review school requirements and more.
○ What you’ll need for every application:
  • A copy of your high school transcript
  • A list of your extracurricular activities
  • Test scores
    − SAT or ACT
  • Parent/Legal Guardian Information
    − Educational background, occupational information, employer information, etc.
○ Start your essay and personal statement early and have it proofread.
○ Admissions evaluators only spend about 12 minutes on an application, so make a lasting impression.
○ Your personality matters, so prove you’re more than your test scores and grades.

EARLY DECISION VS. REGULAR DECISION

○ If you are passionate about one particular school, then you should consider applying as an Early Decision candidate.
  • Early Decision candidates submit their application in November to their top college and receive an admission decision by December.
  • If you’re accepted, then you agree to attend that college and accept their financial aid package.
○ If you are interested in multiple schools, then you should consider applying as a Regular Decision candidate.
  • Regular Decision candidates submit their application in late December or January and receive a decision in the spring.
  • If you’re accepted into multiple schools, then you are able to compare financial aid packages and to pick the college that fits you.

HOW TO WRITE A BOMB COLLEGE APPLICATION AND ESSAY

○ Analyze the prompt thoroughly and organize your writing.
  • Read the prompt several times before you begin to draft your outline.
  • See how long each paragraph needs to be to fit within the word count limit.
  • Create a schedule when to write your essay.
  • Start your essays and applications early!

○ Use your essay as an introduction to admissions officers.
  • Don’t simply state in your essay that you’re passionate about something, show them through strong examples.

○ Be yourself and tell YOUR story when writing essays.
  • Use college-level vocabulary in your essay, but avoid overdoing it.
  • Since many essays have a word count limit, find advanced words to replace a phrase.
  • Create complex and compound sentences and save simple sentences for when you need to make an impact.

○ Have someone read and review your essays.
  • Ask no more than three people to help revise your essays; too many opinions may harm your essay more than help it.
  • Seek out teachers or individuals who have a background in the college admissions process.

TIPS ON HOW TO STAND OUT

○ Visit the campus.
  • 70% of colleges say by visiting their school it plays a factor in their admissions decision.

○ Colleges are looking for well-rounded students.

○ Be cautious of your social media presence.
  • Delete posts or tweets that may impact your application if a college admissions officer were to see it.
  • Use social media as a platform to strengthen your brand and application.

○ Convey who you are beyond the essay and application.
  • Add a little bit of humor into your essay.

FINDING THE BEST SCHOOL FOR YOU

○ Recognize that the “best” colleges in the nation may not be right for you.
  • Find a college that fits your personal lifestyle and goals.
  • Factor in the cost of attendance and the amount of financial aid each school offers you.
  • Research what colleges offer the right courses and the facilities offered for your intended major (i.e. if you’re a STEM major, then look to see if the college has updated labs).
  • Consider the ratio of students to teachers and class sizes.
  • Do you want to come home often, or experience a different part of the country? The location of the college is quite important in the decision making process.

To create a college roadmap visit: www.bigfuture.collegeboard.org
This page is all about the “Benjamins”! As the cost of tuition continues to rise, it is imperative that you as a student take advantage of financial aid opportunities such as scholarships and grants to alleviate the cost of attendance. As a senior, you can apply now for resources to help pay for college. On this page you will find tips and resources to begin your search!

**WHAT IS FINANCIAL AID?**

- Financial aid is money that helps pay for college.
- Financial aid can come from the U.S. Federal Government, your local state resources, the college you attend, or a nonprofit or private organization.
- Federal student aid includes:
  - **Grants**: financial aid that doesn’t have to be repaid (aka free money!)
  - **Loans**: borrowed money for college; you must repay loans and their interest
  - **Work-study**: a work program through which you earn money to help pay for school

**WHAT IS THE DIFFERENCE BETWEEN PAYING FOR COLLEGE WITH SCHOLARSHIPS AND GRANTS VERSUS PAYING WITH LOANS?**

- Scholarships and grants are basically free money.
  - This is money you will never have to pay back and can go towards anything (i.e. housing, tuition, books, etc.).
- Loans must be repayed with interest.
  - **Federal loans**: provided by the government with a fixed interest rate and income-driven repayment plans.
  - **Private loans**: provided by private organizations such as banks, credit unions, and state-based or affiliated organization.
    - Typically more expensive than federal loans.

**AS JUNIORS AND SENIORS YOU CAN APPLY FOR SCHOLARSHIPS AND GRANTS NOW!**

- Start your scholarship search early, look for scholarships everywhere, and apply for many.
- Gather letters of recommendation and list your accomplishments and awards.
- Have someone proofread your essays and review your entire application.
- Apply for scholarships you are qualified for first, then some you may not be qualified for.
- Use scholarship matching tools as a database to find scholarships fit for you, like:
  - www.akaeaf.org
  - www.uncf.org/scholarship
  - www.unigo.com
  - www.fastweb.com
  - www.cappex.com
- Or use apps on your phone to find scholarships on the go, like:
  - www.scholly.com
  - www.raise.me
  - www.scholarships.com

For more information visit: www.studentaid.ed.gov/sa/
WHAT IS FAFSA (FREE APPLICATION FOR FEDERAL STUDENT AID)?
○ A form that determines your eligibility for federal, state, and college-sponsored financial aid; including grants, educational loans, and work-study programs.

○ The form must be submitted annually.
  • Opens annually on October 1 on www.fafsa.ed.gov
  • Early submissions = more $$$

○ Use the FAFSA website to see when your State FAFSA Deadline is and to see when FAFSA Day is in your state.

○ This year you can complete your FAFSA using the new phone app, myStudentAid.

AVAILABLE ON THE APPLE APP STORE (iOS)
AVAILABLE ON GOOGLE PLAY (ANDROID)

WHAT ARE SOME COMMON MISTAKES AND TIPS WHEN COMPLETING THE FAFSA?
○ Gather information early to assist when completing the form online, such as:
  • Your social security number and driver’s license (if applicable)
  • W-2 Forms from the past two years
  • Yours and your parents’ Federal Income Tax Return from the past two years
  • Current bank statements

○ Making mistakes can delay your application and limit the amount of aid you’re eligible for, such as:
  • Leaving fields blank
  • Using commas or decimals in numeric fields
  • Entering information like your name or address incorrectly
  • Forgetting to list colleges you’ve applied to attend

HOW CAN YOU PAY FOR COLLEGE IF YOU CANNOT EARN ENOUGH SCHOLARSHIPS AND GRANTS TO COVER THE TOTAL COST OF ATTENDANCE?
○ If money is a issue consider attending a community college, then applying to a four-year college afterwards.

○ Loans should be a last resort, but they can help when you cannot cover the full cost of attendance.
  • Remember to apply for federal loans first before you apply for private loans.

○ Types of Federal Loans:
  • Subsidized Loans: does not earn interest while you are in school at least half-time.
  • Unsubsidized Loans: interest begins to accrue as soon as the loan is taken out.
